PROFESSIONAL EXPERIENCE

Corporate Communications & Brand Specialist | *Jade Textile Group* | *HR title: Graphic Designer* **2024 – Present**

- Own the full corporate communications function for the group: corporate visual identity system across all touchpoints, PR and press statements, stakeholder correspondence, corporate event organization, photography and videography — run as one integrated communications team, not a design-only function.
- Built “Jade Monitor”, an internal AI-powered brand-monitoring system using n8n workflow automation and the Claude API, with automated sentiment analysis, priority scoring, and monthly Arabic reports.
- Made sustainability a core brand priority and built the CSR communications direction. Designed the brand characters Jadawy and Jadawiya with my team and line manager, now used across sustainability, safety (PPE), HR, and recruitment communications and seen by 14,000 employees and factory workers; built jointly with HR to reinforce company values.
- Ran three annual September sustainability campaigns with my team and line manager, “Jadawy’s Green Mission”, “The Green Thread”, and “Plant a Tree, Send It to Us”, as part of the CSR communications program.
- Grounded CSR/sustainability messaging in structured frameworks — applied Carroll's four-pillar CSR model to the textile industry context, and drew on UN Global Compact SDG learning content ("Becoming a Leader on the Global Goals") to align communications with recognized sustainability standards.
